PLAYING THE GAME

Ultimate Texas Hold'em® features heads-up play against the Dealer, the optional Trips wager. This game gives you several advantages:

- The earlier you bet, the more you can bet
- You do not have to fold until you see all the community cards
- The Trips bonus pays odds if your final five-card hand is a three-of-a-kind or better.

GETTING STARTED

Make equal bets in the ante and blind circles. You may also make the Trips wager. You will then receive two cards.

BET BIG... OR SMALL... OR NOT AT ALL

When you get your two hole cards, you can either check or bet 3x-4x your ante. The Dealer then reveals the three-card flop. If you have not already made a play bet, you have a choice: check or bet 2x your ante. The Dealer then reveals the final two community cards. If you have not already made a play bet, you have a choice: fold or bet 1x your ante.

WINNING & LOSING

The Dealer then reveals their two hole cards and announces the hand. If your hand beats the dealer's, your play and ante bets win even money. If the Dealer's hand beats yours, your play, ante and blind bets lose. If you tie, those bets push. The blind pays if your winning hand is at least a straight (see the layout for odds). If you beat the dealer with less than a straight, it pushes.

DEALER QUALIFYING

The Dealer needs a pair to qualify. When the Dealer does not qualify, your ante will push and be returned. All other bets placed will receive action.
